

SARAH CURY

EQUESTRIAN GARDEN

SARAH CURY

Sarah Cury is a luxury womenswear designer who founded her namesake label in the Dominican Republic in 2015. Every piece created is a flawless expression of unparalleled sophistication, sartorial individuality, and renaissance spirit. Intertwining artisanal techniques with refined craftsmanship echo a conscientious approach to timeless design and ageless legacy. Her rigorous attention to detail evokes feelings of femininity as well as a dialogue between elegant structure and poetic fluidity. Collections curated with a subtle juxtaposition of well-balanced elements, organic silhouettes, and iterations of heritage. An homage to permanence, nodding to the nostalgic remembrance of techniques and wisdom passed down by a strong lineage of women.

MARC QUINN. World of Desire, 2010

EQUESTRIAN GARDEN

This collection is inspired by the designer's love for horses and the exuberance of floral fields, the nearest depiction of heaven on earth. Symbolizing victorious strength, liberating beauty and the dialogue between Structure and Fluidity. Her relationship with horses was engraved deep in her being at a very young age, particularly the day she received one as a gift. A connection in extraordinary ways, reminder of genuine splendor, vitality, and freeing elegance. Enamoring gallops that evoke stanzas of victory. A central verse to every revolution, to the conquering of territories; Talented racers with an untamed sense of conquest, loyal with majestic dignity. Eyes are the windows of our souls, a peak at the brilliance one carries within, the direction to where a vision leads. Unmistakable nearsighted equine vision, honest and unfailing.

The concurrence of growing-up among an endless variety of exotic flora and vegetation, wealthy in color and abundant in life, brings nature's perfection to light. Emblem of the most elegant flowers, the orchid conveys poise and graceful balance. At the core of this collection stands the seal between sartorial and artisanal detailing, innate to the brand's aesthetic and techniques. Harmonious color blocks, knotting, basting and unthreading appliques render Horse knots and Orchid petals from the same cut of fabric. Like the petals that make up an orchid, the construction and deconstruction of these elements, reflective of my interpretations, reposes a story in bloom. Refined craftsmanship mirroring nature poetically.
