

SARAH-CURY

REBIRTH COLLECTION

S A R A H C U R Y

Sarah Cury is a luxury womenswear designer who founded her namesake label in the Dominican Republic in 2015. Every piece created is a flawless expression of unparalleled sophistication, sartorial individuality, and renaissance spirit. Intertwining artisanal techniques with refined craftsmanship echo a conscientious approach to timeless design and ageless legacy. Her rigorous attention to detail evokes feelings of femininity as well as a dialogue between elegant structure and poetic fluidity. Collections curated with a subtle juxtaposition of well-balanced elements, organic silhouettes, and iterations of heritage. An homage to permanence, nodding to the nostalgic remembrance of techniques and wisdom passed down by a strong lineage of women.

*"You must constantly try to climb very high, if you
want to be able to see very far."*

- Constantin Brancusi

REBIRTH

The collection was inspired by Constantin Brancusi's philosophy; immerse ourselves through the essence of light. The fusion between the poetic sensation bursting with light of the sculpture of Mademoiselle Pogany and the elegantly calculated movements of the Stingray in the ocean represent the rebirth of two significant events in the designer's past, they communicate the visual history of what her designs intend to project at the present time.

Rebirth brings out the leitmotiv of every material composing each piece. Integrating it with artisanal and sartorial techniques, the brand's insignia. A sculptural dialogue is accomplished between Mademoiselle Pogany's high-relief statuette and the slanted movements simulating the Stingray; every sculptured piece emanates curated movement, remarkable grace and elegance.

CONSTANTIN BRANCUSI. Mademoiselle Pogany II, 1925-2006. Polished Bronze
